E224 263C 11A5 83D1 96C4 F33E EADF 9B89 0C5E F5B9

A new, technological and decentralized world is emerging. It will be fully integrated with blockchain internet technology. The Bitcoin blockchain has already become the foundation for this development. Innovative companies and new decentralized organizations will regularly use **Bitcoin**.

STARWEE

is an international provider of software development and IT infrastructure services for businesses that need to migrate to web2 or web3**web5** technologies to increase revenue

STARWEE ₿

Wee are an intermediary on the way

from old technologies

to new business innovations

```
from paper to code
from web2 to web3web5
from fiat currency to bitcoin
```

what wee do

wee develops simple no-code solutions in the format of web and mobile applications for business and personal use

why wee do it

with these solutions/programs/applications,
you can easily create and program
decentralized financial systems for
business or personal capital,

without code and with a simple and
user-friendly interface

how wee do it

wee create basic tools for Organizations and provide training materials, guides, instructions, etc. that simplify the adaptation process

wee are an open source company
internal financial system and business
processes are based on bitcoin

step by step, wee plan to implement
services that are necessary for business
to optimize, automate and grow

wee started with what an organization
starts with… //:

₿ digital statute
